

MISSOURI BARBURNER.

This paper has made its appearance, and is to be published daily. The following extract from the leading article of the first number, will show the reader its position.—It walks into the Cass faction right vigorously. Messrs. Blair and Gant, two distinguished loco lawyers of St. Louis, are understood to be its editors.

"As democrats of the old hard Money Radical School, we are unwilling to see the Father of the Independent Treasury System denounced as a traitor and an apostate by the soft-shelled Shin-plaster Facilitators in this and other States. We are unwilling to see the Democracy of New York always the unflinching supporters of the constitutional rights of the South, denounced as abolitionists, for advocating the principles of George Washington, Thomas Jefferson and James Madison, and all the proud names of the Revolution, and the palmy days of the Republic.

"As citizens of Missouri, and of a free Republic, we are unwilling to become advocates of the extension of slavery in territories now free; while ever ready to respect and defend the social rights and institutions of our own and other States, we refuse to be placed either actively or passively in the attitude of propagators of the system of negro slavery; and while uncompromisingly opposed to any interference on the part of Congress with slavery within the limits of any State, we are in favor of extending the Jeffersonian Ordinance of '87 over the territories of New Mexico and California.

"We therefore, take our stand in favor of Martin Van Buren. We advocate him, because he stands upon the old Democratic creed as handed down to us by the Fathers of that Faith, and we call upon the Democracy of Missouri to disregard the denunciations of designing men, and to stand by their tried men and approved measures."

A GRAPHIC PICTURE.—Senator Dickinson, in his late speech in New York, drew the following graphic picture of B. F. Butler, Esq:

"Mr. D. apologized for discussing so small game as Mr. B. F. Butler, but the favor of Van Buren had given him a sort of fictitious importance which made it perhaps best that he should devote a few moments to that rascal man. His early success at swindling honest people, as exemplified at Sandy Hill—his boasted triumph over truth, justice and honesty in the affair with the young patron, marked him for the fitting instrument of Martin Van Buren. It was not wonderful therefore, that he had basked in the smile of his patron. It was to be ready for a possible contingency such as that which has recently occurred, that the cunning fox of Kinderhook trained him with so great care. His success in accomplishing the purposes of Mr. Van Buren at Buffalo, where he large a majority of the motley delegates loathed both his master and himself, proved that he was as apt in learning political rascality, as in practicing financial slight of hand at the expense of the bread of his poor neighbor."

When the Whigs used to talk thus of the pious Butler and his associates, the locos attempted to laugh it down as a "Whig lie." Now the same men are busily engaged in asserting what they then denounced as "Whig lies." This is a fair sample of the course of that party.

VIRGINIA HOTEL.

We call the attention of our readers to the advertisement of J. H. Sparr, Proprietor of the Virginia Hotel, St. Louis. This House has recently been greatly improved by additions and repairs, and furnished in magnificent style, and being situated in the most business part of the city, offers inducements to the travelling community not exceeded by any house in the West. We copy the following notice of it from the St. Louis New Era:

"We take great pleasure in calling the attention of the public in this and the adjoining State, to the advertisement of Mr. J. H. Sparr, the proprietor of the above well and favorably known Hotel in this city. Situated more conveniently for business men than any other large hotel in St. Louis, it presents, with the late extensive improvements and additions made to it, greater inducements as to comfort and convenience to the travelling and business public, than any other house of the same capacity in the city. In addition to a large number of commodious family rooms which have been added, and the general renovation the entire house has undergone, Mr. Sparr has at a very great expense extended his dining room, so that he is enabled to seat 200 persons at his tables at one time, without inconvenience to himself or his guests. He has been induced to make these extensive improvements at his own expense, in consequence of a renewal of his lease, and a desire to meet the expectations of his numerous friends throughout Missouri, Illinois, and Iowa. His table will continue to be supplied with the best of markets affords, and we can with safety say that business men and others who may visit St. Louis, will find it both for their comfort and interest, to sojourn while here, at the Virginia Hotel."

GOVERNMENT FUNDS.—On the 28th ult., there was in the U. S. Treasury, subject to draft, \$2,011,244, of which \$44,787 was in the depositary at Baltimore. The amount of treasury notes outstanding on the 1st inst., was \$12,609,989. During the year ending the 30th of June, the sum of \$3,526,938 was received from the sales of public lands.

A SUGGESTION.

The Metropolitan says, by an oversight, we suppose, the election for Circuit Attorneys is left as under the former law, to be held on the 1st Monday in November; and thus, since the act of Congress prescribing the time of holding the Presidential election, comes off one day before the latter. To save time and the necessity of attending on two successive days, we would suggest to the County Courts of the different counties the propriety of ordering, that in the election for Circuit Attorneys, the polls at the different precincts be kept open two days. The voters can thus all vote on the second day for both Circuit Attorneys and Presidential Electors.

BARBURNERISM.

The following article is from a German paper printed at Herman, in this State, to which we alluded in our last—

From the Herman Wochenblatt, Aug. 19. Our readers already know from a former declaration in our paper, that we cannot coincide with that part of the democratic party, which considers slavery in the newly acquired territories, New Mexico, and California as possible permissible—we will say admissible. Therefore, we cannot support for the Presidency the candidate who is brought out by that party as their representative, we mean Mr. Cass; but we take side with the democratic party, called "Radical Democrats," or Barburners, and who have put up Van Buren as their candidate for the Presidency. We therefore, declare our approbation of the well known "Wilmut Proviso," which heads the Barburners' confession, and lays down the principle, that in no part of the Union can slavery, legally be introduced, and we believe Congress has a right to preclude, forever by way of legislation, the possibility of the introduction of slavery into the thus far free, now annexed territories of Mexico. Cass disputes the power of Congress, and he therefore, together with the party he represents, puts himself in direct opposition to the acts and principles of the fathers of our revolution, the author of the glorious declaration of Independence and the ordinance of 1787, which forever excluded slavery from the great North-western Territory, as it existed at that time.

Could it be possibly brought on the part of the Radical Democrats or Barburners in this State, to get up a special ticket for Presidential Electors, we would be very much gratified; but if even this cannot be, we owe it to our principles and our dignity as Republican citizens, openly to set forward with our opinion; as it could not be otherwise expected of us, of those who know us, as well with regard to politics as with regard to religion. With us, it is a matter always to remain true to the principles we have proved—to confess them openly, no matter whether few or many share them with us.

The principles of radical democracy, however call upon us to stand on the side of the Wilmut Proviso. But it has been a matter of gratification to us, to find in the greatest cities of the West to which our recent journey brought us, among our oldest acquaintances and friends, so many who shared our opinion in this democratic party question; although we will not deny, but that occasionally, we were engaged in warm disputes, which, however, terminated always in a friendly manner.

That slavery is a stain on our Republic, yes, a contradiction of the very principles of liberty and equal rights of man, and which nevertheless, she pretends to recognize, no unbiased citizen of this country will deny. As long as slavery finds among us, in our praised Republic, legal recognition, and it is insisted, that the black race shall be placed, if possible, by system, below brutes, so long the American people cannot, with full right lay claim to the title of an "enlightened people."

NORTH CAROLINA.

All the accounts we get from the Old North State are encouraging to the Whigs. Under most discouraging circumstances, our friends have elected their Governor and the Legislature. They were a little drowsy at the State election, but now they are thoroughly roused up, and at work. They will give the State to Taylor and Fillmore by a large majority. A letter from one of our electors, dated Raleigh, August 26, 1848, says:

"You need not be under any apprehensions about our good old State. She is this day as true as she ever was to the Whig cause, and in November will give Taylor and Fillmore an overwhelming majority. The vote in the Governor's election is no test of the strength of Gen. Taylor, in this State local causes produced the falling off in the Whig vote. The triumph of the Whigs, under all the circumstances, proves their invincibility. We go into the Presidential election with no such local incumbrances, and I honestly believe that the Whigs will be thoroughly aroused. Many of our best informed friends think we shall be able to carry the State by between eight and twelve thousand majority. Be of good cheer, we shall work like gallant fellows here, and no mistake. All of us intend doing our whole duty like men."

"Mr. Badger gave us a great speech night before last, and I think his defence of Gen. Taylor and his position, superior to anything I ever heard. Our friends are rallying in all sections of the State. I have seen some dozen of letters since the election, all breathing the same determined spirit, to roll up a real Harrison majority for Old Zack."

In Vermont, the Whigs have elected 46 Representatives, the Barburners 21, and the Old Hunkers nine! leaving only sixteen majority for the Whigs out of 76 members elect, over the united strength of the Barburners and Old Hunkers.

Dr. Alexander, M. Robinson, of Platte county, and Col. E. B. Ewing, of Ray, and Col. D. C. Ballow, of Benton, are spoken of in the last Metropolitan as candidates for Speaker of the House of Representatives from this State.

It is stated by the Washington correspondent of the New York express, that during a portion of the exciting scenes in the U. S. Senate, on Saturday night previous to the adjournment, while the Oregon bill was under discussion, that "on either side of Mr. Benton's chair were seated his two sons-in-law, Col. Fremont and Mr. Jones, both of whom, I heard it remarked, were completely armed."—Lexington Observer & Reporter.

ADVICE TO LADIES.—Always dress as neatly and plainly as possible—Let Flora be your jeweller, and a rose bud the only gem about you. This covering yourself with gew-gaws, like fat cattle, only indicates that you are intended, like them, for market.

FEVERS.

Fevers, like every other form of disease, are only an effort of nature to expel from the body something that is opposed to its health; it is merely a struggle between the good and bad humors for supremacy, and the common which engenders is called Fever. The usual symptoms of a Fever are heaviness, anxiety, sighing and yawning, with alternate fits of cold and heat, after which the patient complains of pain in the head and back, thirst, difficulty of breathing, pain in the limbs, a sense of fullness about the region of the stomach, nausea and sickness, with sometimes a vomiting of bilious matter.

Wright's Indian Vegetable Pills will be found peculiarly adapted to the cure of ALL KINDS OF FEVERS, because they not only thoroughly cleanse the stomach and bowels from all bilious humors, but they open those excretory vessels which employ in the circulation, (which is the cause of all disordered motions of the blood, called Fevers,) is thrown into the bowels, from whence it is carried off by the regular alvine discharges.

In using Wright's Indian Vegetable Pills for Fevers, the only care necessary is, to have the medicine operate COPIOUSLY BY THE BOWELS. If the symptoms are urgent, from four to eight pills should be taken, night and morning, until the fever has subsided, after which smaller doses, once in twenty-four hours, will be sufficient to restore the body to a sound state of health.

Beware of Counterfeits.—THE ONLY ORIGINAL AND GENUINE INDIAN VEGETABLE PILLS HAVE THE SIGNATURE OF WILLIAM WRIGHT WRITTEN WITH A PEN ON THE TOP LABEL OF EACH BOX. None other is genuine, and to counterfeit this is FORGERY. The genuine is for sale by B. B. TAYLOR & SONS, Sole Agents for Fayette; D. C. CHAMPION, Champion's Mill; S. C. CARROLL, Glasgow; FELIX REDDING, Keytesville; M. T. ATKINS, Brunswick; and wholesale and retail by HENRY BLAKESLEY, St. Louis. Office and general depot, 169 Race Street, Philadelphia.

LIGHT! LIGHT!

WHO HAS NOT HEARD OF THE GREAT DRUMMOND.

The Inventor of the Great Drummond Light which placed in the Rotunda at Washington, lights the whole city.

DRUMMOND

Is the Inventor and Patentee of an article which for general utility is unsurpassed in Domestic Economy:

The Drummond Candle maker or Candle Stick which makes its own candle out of lard, tallow or kitchen grease, which candle will burn twice as long in proportion to the material consumed as any other lighted candle. It is a neat CANDLE STICK, making and wicking its own candle out of tallow, lard, or any grease that will burn. By simply turning the bottom of the Candlestick, a beautiful, hard, smooth CANDLE is forced out of the top, at any desired length you wish—from one inch to two feet in height.

1. It is neat and simple as a common Candlestick, consequently may be used by any body. 2. By means of this you can convert all your refuse grease into candles, and thus obtain a light costing from one to three cents per week. 3. The wick is dry and smooth, thus no vibration or flickering of the flame, but burns like a sperm candle. 4. The wick may be changed without at all disturbing the candle, if too large put in a small one, or if too small, a large one. 5. You coil in the bottom of the candle maker, or candlestick, wick sufficient to last five or six weeks, where it remains out of sight and out of the way. 6. You may keep your candle at the same height all the time for ten years—no stumps or pieces left. 7. Requires replenishing with grease or tallow once a week. 8. No spilling of grease if it falls or turns over, but as neat and clean as any lady could desire. 9. It cannot get out of order. 10. In proof of their superiority, utility and neatness the immense number sold is sufficient.—The price is uniform and the same all over the United States, and the article requires only to be seen, to convince the most incredulous of the foregoing facts. No family will be without them who can scrape together the small price asked. It is a business that men of large or small capital can engage in and make a profit that would astonish any business man at the first glance. The subscriber can guarantee any practical business man that with a capital of only three or four hundred dollars to commence with, he can make one thousand dollars (at a low estimate) in six months in this country, and men with means not over one hundred dollars, can make four to five hundred dollars in adjoining territory for sale in as little time.

For further particulars call on the subscriber in Fayette. Office on the south side of the Public Square, where he can be seen for a few days with a sample of the article. J. W. A. MCGARVEY, Sept. 16, 1848—1f.

Wright's Indian Vegetable Pills.

CURE FOR FEVER AND AGUE.

RUSSELLVILLE, PUTNAM CO., INDIANA, July 1, 1848. DR. WRIGHT—Some time since your agent left me a supply of Indian Vegetable Pills. I have found said pills to be in great demand lately for the cure of fever and ague. Mr. James Boyd has a son who has been laid up with fever and ague, and had tried various other remedies, all of which proved of no avail. He determined to try your Indian Vegetable Pills, and by using one box he is now sound and well. Mr. T. Spencer had a daughter, Mr. Hugh Groves a son, and Mr. Chas. Nichols and three of his family, were all down at the same time with fever and ague, and had also tried the various other remedies without effect. Your Indian Vegetable Pills soon restored them all to perfect health. I can assure you, from what I have seen, your Indian Vegetable Pills will be relied on for a permanent cure of fever and ague. Yours, resptl, JACOB DURHAM, P. M. Also, an acting justice of the peace.

This is to certify, that I was entirely cured of the chills and fevers of several months standing, by the use of four doses, of four pills each, of Wright's Indian Vegetable Pills, and after taking medicine from a regular physician for some time, and have had no symptoms of it since, which has been about one year ago. J. W. SPENCER, Texas, Champaign county, Ohio.

This is to certify that I was cured of the chills and fevers by the use of Wright's Indian Vegetable Pills, after having had three attacks of it. DAVID BERRY, Sugar Grove, Fairfield county, Nov., 1846.

Let it be remembered that WRIGHT'S INDIAN VEGETABLE PILLS are prepared with special reference to the laws governing the human body. Consequently, they are always good, always useful, always effective in routing out disease. Every family should keep them at hand.

RAHWAY, June 16, 1847.

"I have been afflicted for years with the Piles, and have tried without anything like permanent benefit, almost everything assuming the name of a remedy. I had, as a matter of course, lost all confidence in medicine. Under this feeling I was induced—not without reluctance, I confess—to use 'Upland's Electuary'; and having used it for about three weeks, according to the directions laid down. Dr. McLean's Liver Pills.

For the Cure of Liver Complaint, Dyspepsia, Stomach, and all Bilious Complaints.

The liver is much more frequently the seat of disease than is generally supposed. It is now generally admitted by Physicians of reputation, and experience, that more than one-half of the complaints which occur throughout the great valley of the Mississippi, have their seat in a diseased state of the liver, and that more than three-fourths of the diseases enumerated under the head of Consumption, have also their seat in a diseased liver.

Case in St. Louis of one year's standing.

St. Louis, Mo. May 5, 1847. Dr. E. EASTERLY—Sir: I hereby certify that I have been afflicted for more than a year, with the liver complaint, and have applied to different physicians, and all to little or no effect, until I made use of Dr. McLean's Liver Pills. I am happy to inform you that I was perfectly cured by the use of one box. I can therefore, in justice, recommend others who are troubled with a diseased liver, to make a trial of these Pills.

Truly yours, ROBERT HALL.

SMITH'S TONIC SYRUP.

VEGETABLE FEBRIFUGE.

SPEEDY, SAFE & CERTAIN CURE FOR AGUE & FEVER.

Chill Fever, Dumb Ague, Intermittent Fever, and all the various forms of BILIOUS DISEASES.

This valuable medicine is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the chill, but removes the cause from which the disease originates. Its operation is both general and specific.

While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it at the same time exerts a specific influence upon the liver, digestive organs and lymphatic and glandular systems, exciting them to healthy activity, removing all morbid matter, equating the circulation, restoring their proper and necessary secretions, thus accomplishing a complete renovation from disease, and restoration to sound and permanent health.

It will be readily conceded by every intelligent mind that a Tonic Syrup composed of the most valuable ingredients, carefully selected from the Vegetable Kingdom, must possess far more potent properties for the complete eradication of the diseases for which it is especially prepared, than can possibly be compounded with the limited quantity usually administered in the form of Pills.

Those who are suffering with the prostrating AGUE and FEVERS, common to the west and south—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies—should resort at once to the use of this VALUABLE MEDICINE.

It has cured and will cure the most obstinate cases. Travelling through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change. Even the mind partakes of the beneficial process, and life, that before appeared one dreary waste, begins again to seem worth possessing.

Pamphlets respecting this valuable medicine, can be obtained of the agents gratis.

CAUTION.

As there are many spurious preparations of similar name hawked about the country and sold on the reputation of the genuine.

SMITH'S TONIC SYRUP, we therefore beg leave to caution the public against imposition, as we cannot hold ourselves responsible for the effects which may result from the use of spurious articles.
